PROFESSIONAL SUMMARY

Results-driven B.Tech Computer Science student and former Machine Learning Intern with experience in AI and software projects. Strong in problem-solving, leadership, and collaboration through projects, hackathons, and community roles. Seeking Software, Data, and AI roles to build end-to-end solutions.

EDUCATION

BANSAL GROUP OF INSTITUTIONS

Bhopal, India

Bachelor of Technology, Major in Computer Science; CGPA: 7.91/10;

12th - Higher Secondary School, **GOVT. HAMIDIA BOYS SCHOOL** (GPA: 72.6%)

Apr '23

10th - Scondary School, **GOVT. HAMIDIA BOYS SCHOOL** (GPA: 77%)

Apr '21

TECHNICAL SKILLS

Programming Languages: Python, C++, SQL

Web Development: React, JavaScript, HTML, CSS, FastAPI, REST APIs, Streamlit, Django

ML & Data: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow, PyTorch, Transformer

AI & LLMs: LangChain, LangGraph, GenAI, RAG, Agentic Systems, Prompt Engineering, Gemini API/SDK

Others: Git/GitHub, Machine Learning, Deep Learning, NLP, Time Seires, Docker, DSA, Linux (Basics), FireBase

PROJECTS

TRADE GLANCE | [Preview](#)

Jan '26 – Feb '26

Tech: Python, Streamlit, Prophet, FinBERT, Plotly, Scikit-learn, Finnhub & Y-Finance API, LangGraph

- Built an AI-driven **FinTech** market intelligence platform for **time-series** forecasting, technical analysis, sentiment modeling, and automated research. using tuned Prophet (7–90 day horizons) and FinBERT-powered sentiment pipelines.
- Improved forecast accuracy by **~18%** through **feature** engineering and integration of 3 technical indicators (SMA, RSI, MACD)
- Developed an agentic AI assistant with tool-calling and live search engine for real-time market research and query handling

POTHOLE.IO | [Preview](#)

Oct '25 – Jan '26

Tech: React, TypeScript, FastAPI, YOLOv8 (onnx), NeonDB (PostgreSQL, Auth, Realtime), Gemini API, Vercel/Railway

- Built a full-stack AI powered **civic platform** to streamline pothole **reporting**, enabling citizens to submit **geo-tagged** reports and track repair status in **real time**.
- Deployed YOLOv8 (ONNX) for pothole detection achieving 91% **accuracy** with **~200ms inference** per image.
- Implemented Gemini **GenAI** for automated report summarization and chatbot assistance, reducing manual effort by **~60%**.
- Architected **scalable** FastAPI backend with Supabase ensuring secure access control and **low-latency** data synchronization

END TO END ML PIPELINE USING MLOPs | Scikit-learn, XGBoost, Pandas, MLflow, FastAPI, Docker

Sep '25

- Built an end-to-end **fraud detection pipeline** on **284K+ transactions** with **<1%** fraud rate using scalable preprocessing & feature engineering. And deployed Dockerized FastAPI API for **real-time risk scoring** and **production inference**.
- Increased fraud **recall** from **63% → 92%** via **SMOTE** and **XGBoost**, tracking **30+ experiments** with MLflow.

WORK EXPERIENCE

SureProED | Python & ML Intern

Remote | Jul '25 – Feb '26

- Processed and analyzed 25+ **real-world datasets**, building Python-based data preprocessing and feature engineering pipelines to prepare structured and unstructured data for **machine learning workflows**.
- Designed and implemented 5+ end-to-end projects across ML, DL, and CV, covering dataset preparation, model training, evaluation, & optimization; documented workflows and results to ensure reproducibility and structured ML.

CERTIFICATIONS & ACHIEVEMENTS

- Government of Madhya Pradesh Academic Excellence Award – Higher Secondary April '23
- Object Oriented Programming IIT Ropar, NPTEL** Jan '25
- Oracle Cloud Infrastructure Generative AI Professional Certification – 92%** Sep '25
- Machine Learning Specialization – DeepLearning.AI & Stanford University (Coursera)** Jan'26 – May'26

EXTRACURRICULAR ACTIVITIES

- McKinsey & Company Forward Program** Oct '25 – Jan '26
- Harvard Aspire Institute Aspire Program (Cohort 1)** Feb – April '26
